

# My premature baby – a free app for parents

The My premature baby app has been developed to provide support for parents of premature babies. This is the first prematurity app ever to be developed for parents in the UK.

As well as easily searchable prematurity health information, the app includes:

a diary feature

a place to record feeding

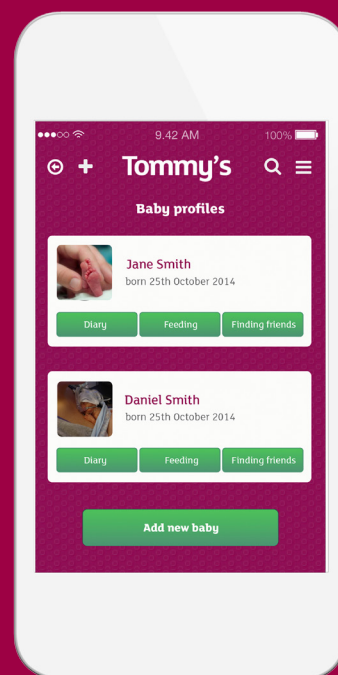

the ability to plot your baby's development on graphs

the ability to share information easily with friends and family

a 'Finding friends' feature

Download the My premature baby app here:
